Savo-Solar in brief

Savo-Solar provides solar thermal systems based on the world's most efficient collectors in which there are 2 m² MPE-absorbers (several patents pending) for heating of buildings, industrial processes and domestic hot water. The absorbers are coated with a highly selective optical nano-coating. Savo-Solar is, according to the available information, the only company able to coat ready-made, complete

absorbers. Focus is on large scale industrial applications such as district heating, industrial process heating and energy renovations of large buildings. Since 2011 the company has sold and delivered its products in over 17 countries on four continents. www.savosolar.fi

The Company's Certified Adviser will be Mangold Fondkommission AB, phone: +46 8 5030 1550.
